DETAILED ACTION

Response to Amendment

1. The amendment received on January 31, 2007 has been entered in full.
2. Applicant's amendments and arguments with respect to rejected claims as presented in the amendment filed have been fully considered and are persuasive. Therefore, the rejections on the respective claims have been withdrawn.

Allowable Subject Matter

Reasons of Allowance:

3. Claims 2-4, 6-8 and 10-12 (renumbered as 1-9) are allowed.

The following is an examiner's statement of reasons of allowance:

Both the instant invention and the closest prior art Nozaki et al., European Patent Application No. EP 0,899,559 A2 are directed to pattern inspection method formed on a substrate. The instant invention further recites the limitation "determination of an edge boundary condition showing the gray level corresponding to the pattern edge position through convolution operation of an optical point spread function corresponding to a strength of the laser beam and said inspected pattern image" in claims 2, 6 and 10 which is not taught by the prior art of record. Therefore claims 2, 6 and 10 are allowed. All other claims depending on claims 2, 6 and 10 are allowable at least by dependency on claims 2, 6 and 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.
